Dear Congressman:

I received your letter thanking me for coming to your meeting on May 19.

I should thank you for the way you cleared up several issues. I had been confused about the Panama Canal treaties and your explanation of the question made it seem the only sensible manner of solving that problem.

Your talk showed me that you surely delve into these issues to be able to reply to so many complex questions.

One remark you make is so true about every agency being overstaffed
